Introducing the New Line of On-demand Gas Water Heaters

We are pleased to announce the addition of a comprehensive On-demand product line, providing continuous hot water in a space-saving design!

The new line includes natural gas and propane models designed for residential or commercial applications. The products feature a 12-year warranty on the high quality heat exchanger and a 5-year warranty on all other parts. With flow rates up to 9.8 gallons per minute and up to 84% thermal efficiency, this line provides an abundance of hot water in an energy saving package. An overview of the product line is included in the chart below.

Model	BTU	Max GPM	GPM @ 45°F Rise	Notes
GTS-305-NI	199,000	5.3	5.3	Indoor
GTS-305-NE	199,000	5.3	5.3	Outdoor
GTS-505-NI	199,000	8.5	7.4	Indoor
GTS-505-NE	199,000	8.5	7.3	Outdoor
GTS-705-NI	237,000	9.8	8.8	Indoor
GTS-705-NE	237,000	9.8	8.7	Outdoor
GTS-705-NIA	237,000	9.8	8.8	Indoor ASME
GTS-705-NEA	237,000	9.8	8.7	Outdoor ASME

Indoor models do not require room make up air, as they utilize a concentric direct vent for sealed combustion. Outdoor models free up valuable indoor floor space and require no venting. The models have no pilot light as they employ direct electronic ignition.

A Standard Remote Controller is included with all models, providing diagnostics and safety monitoring while putting water temperature control at your fingertips. For commercial applications requiring higher water temperatures than 140°F, a Commercial Controller is available to achieve setpoints up to 185°F. ASME models are available for commercial applications that require that designation. Link two or more units through simple cable connections for high demand applications.

A full line of accessories is available, including plumbing installation kits, pipe covers, recess boxes and venting materials needed for various indoor installations.

Please reference your 2008 distributor price book for pricing, as the On-demand units and full list of accessories available are included on pages 13 and 14.

Please call or e-mail with any questions.
